

SIGNATURE RETAILER SOP

This SOP will have the details of using all the components of DMS for setting up the Signature business of RCPL. As part of the Signature program, we will have the following modules

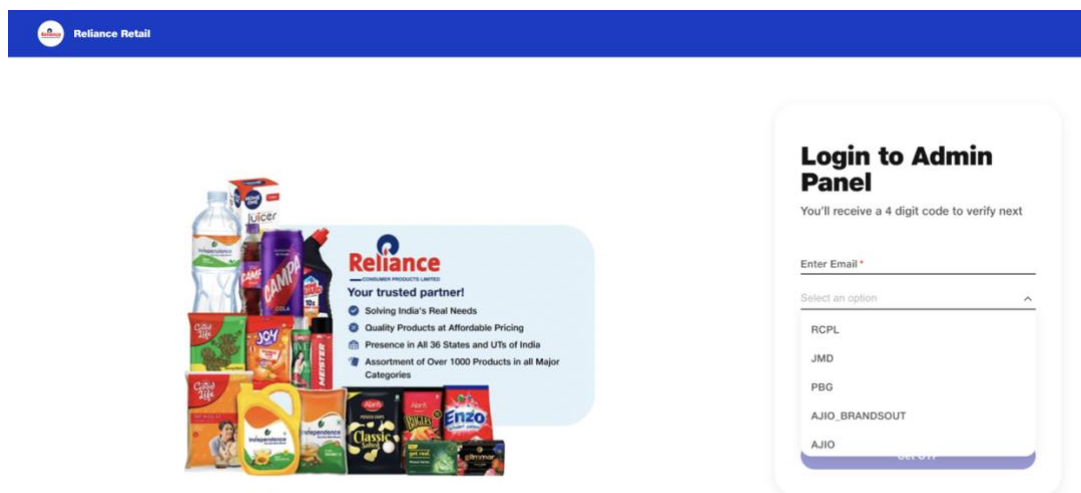

- DMS Admin Panel
- DMS Approval Panel
- CSO App
- Distributor Platform

DMS Admin Panel

What is Admin Panel?

Admin Panel is an interface provided to RCPL Business Team, Sales Team, Finance Team members to upload information regarding the various stakeholders in the distribution management system – such as – Distributor, Channel Sales Officer, Retailers, Business Team members and the relationships between them. It is also used to upload pricing details such as retailer margin, scheme details at necessary levels.

Step 1: How to Login to Admin Panel?

1. Enter the URL (UAT: <https://jio-dms-service.extensions.jmpx3.de/login>, Prod: <https://portal.reliancedms.com/login>) in the Chrome web browser and land on above screen.
2. Enter your email ID as registered with domain 'ril.com' to receive an OTP.
3. Enter the correct OTP as received via SMS to login.
4. Accops access would be mandatory to use the platform in production (Request to be raised with GetIt for the Accops access)

Step 2: How to Bulk Upload files in the Admin Panel?

1. Depending upon one's role as per this table, they would be able to access the Type & SubType fields in the Bulk Upload section of Admin Panel.

Sl No	File Type	Sub-Type	Role assignment number
1	ONBOARDING	Distributor Onboarding	1

4. Click on 'Browse' to browse for the file which you have saved on your local device. Upload the file after searching for it.
5. A successful file upload will appear in the uploaded documents section with 'Success' in status.
6. An erroneous file upload would appear with 'Failed' as the status and. Clicking on the view icon in actions would help view the error due to which the file has not successfully uploaded.
7. A partially failed status also appears with the view icon showing the error in upload.

Step 3: How to Bulk Download files in the Admin Panel?

1. Click on 'Data Download' section in the left panel menu. It will land you to 'Download in Bulk' section
2. Select 'Type' and 'Sub-Type' from the drop-down fields to download the appropriate file. Even the download of certain files is basis roles assigned. The table listed before shows the values.
3. Click on 'Request Download' after selecting the file type.
4. The selected file type would show up as an entry in the Downloaded documents 'File Type' table. Click on the action with downward arrow to start downloading the file on to your local device. A successful file download would appear with status 'Success' in the table entry.
5. The one getting downloaded with 'Partially Failed' or 'Failed' status needs to be retired. For retrying, one must select the Type & Sub-Type from the drop-down again and click on 'Request Download' button. Once the file is successfully appearing in the below table of 'Downloaded Documents', re-click on Actions download button to get the file on to your local.

Below users to be onboarded through the admin panel

1. **Business team** – Any user who would need access to this portal to be onboarded based on the designation, role & rights mentioned initially. (**File Type: Onboarding, Sub-Type: RCPL Team Onboarding for Admin Panel Access**)
2. **CSO Onboarding** – Both the acquisition CSO and Ordering CSO to be onboarded through this (**File Type: Onboarding, Sub-Type: FOS Onboarding**)
3. **Distributor Onboarding** – All the distributors to be onboarded through this (**File Type: Onboarding, Sub-Type: Distributor Onboarding**)
4. **Retailer Onboarding** – The retailers can be onboarded either through bulk excel upload or through CSO app. In case of excel upload this option would be utilized (**File Type: Onboarding, Sub-Type: Retailer Onboarding**)

Below users mapping to be performed through the admin panel

1. **CSO-Distributor Mapping**: The CSO to distributor mapping to be done through this (**File Type: Catalogue and Team Mapping, Sub-Type: FOS – Distributor Mapping**)
2. **Retailer-Distributor Mapping**: The Retailer to distributor mapping to be done through this (**File Type: Catalogue and Team Mapping, Sub-Type: Retailer – Distributor Mapping**)
3. **CSO-Retailer Mapping**: The CSO to retailer mapping to be done through this (**File Type: Catalogue and Team Mapping, Sub-Type: FOS – Retailer Mapping**)
4. **Sales Team Hierarchy Mapping**: The sales team hierarchy of who reports to whom to be mapped through this option (**File Type: Catalogue and Team Mapping, Sub-Type: RCPL Team Hierarchy Mapping**)

Beat Plan Creation

1. The beat plan for any of the ordering CSO's to be done through this portal (**File Type: Beat Planning, Sub Type: FOS Beat Plan**)
2. The CSO beat plan to be created by atleast mapping one retailer in each of the beat and setting the desired frequency of repeating the beats
3. The CSO's would be able to view the beats in CSO app post the above activities

CSO App (Acquisition and Ordering)

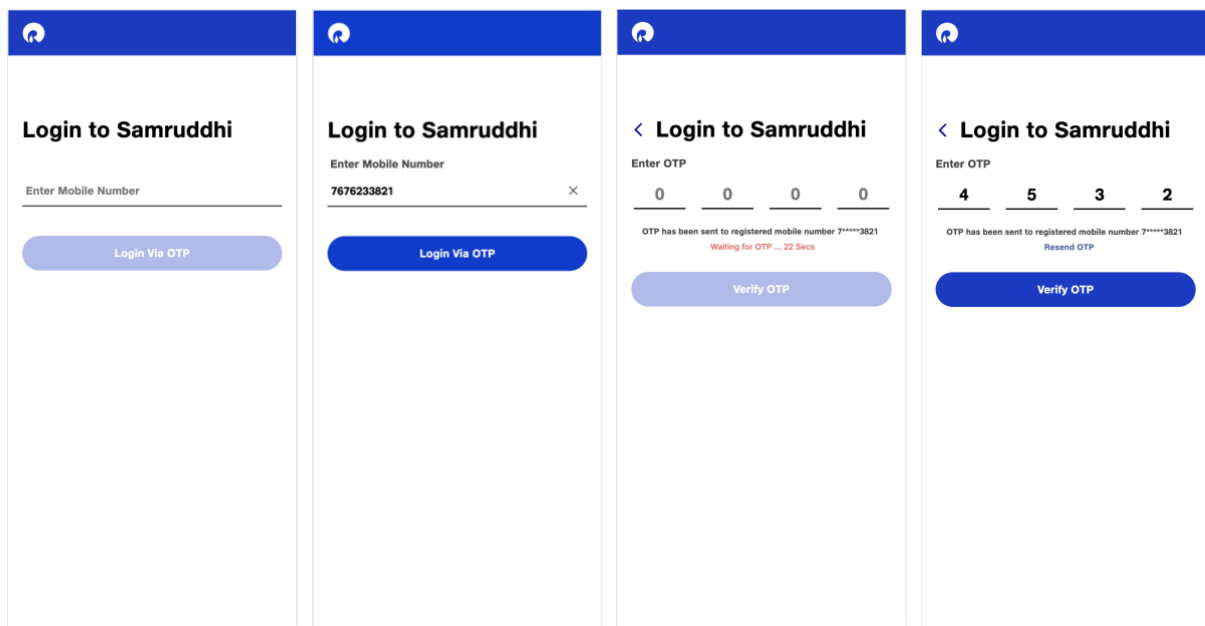

What is RCPL CSO App?

CSO App is an interface provided to RCPL Business Team, Sales Team members to: Onboard new retailers, beat management, chalking productivity statistics as per beats allotted, capture secondary order from retailers by showcasing product catalogue & schemes, view order status.

Acquisition CSO

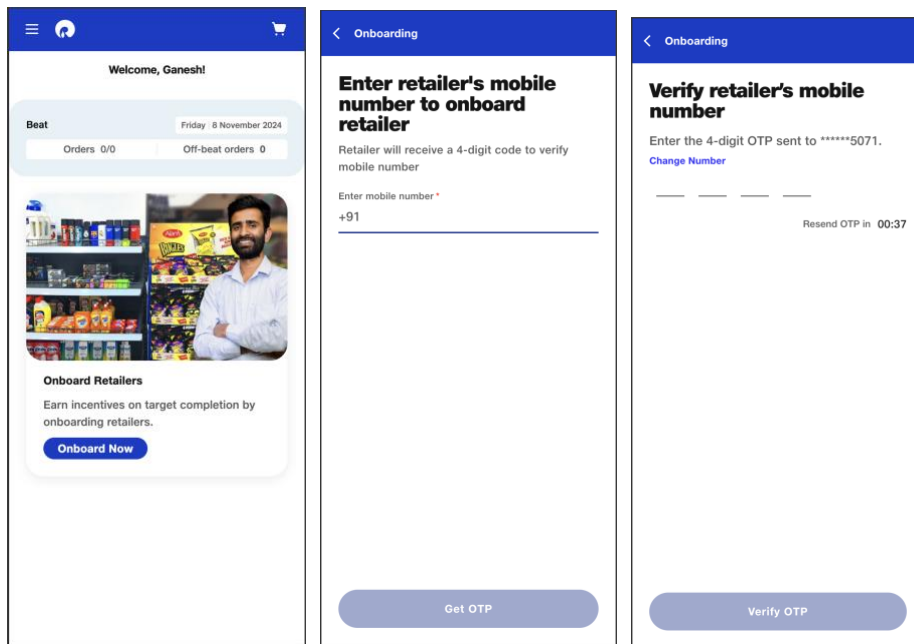

Step 1: How to Login to RCPL CSO App?

1. Download the RCPL CSO App from the apk file provided to you.
2. Install the app on your mobile and launch the app.
3. You will see the welcome screen requesting you to enter the mobile number.
4. Entering the mobile number would trigger OTP request screen.
5. On entering the correct OTP, you will get logged in to the app.
6. For testing through laptop below url's can be used (UAT: <https://rcpl.jmpx3.de>, Prod: <https://reliancedms.jiomartpartners.com>)

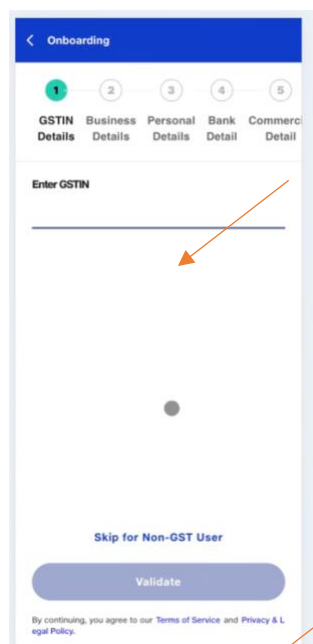

Step 1: How to onboard the new retailer?

1. Acquisition CSO will visit the Retailer & initiate Signature Retailer Onboarding Process
2. In CSO app, there will be an option to Onboard Signature Retailer like shown below.
3. Upon clicking, CSO will be navigated to onboarding portal and will be asked to enter the mobile number of retailers.
4. Once the mobile number is entered and, if the mobile number is not onboarded earlier as signature retailer, OTP will be sent to retailers' phone and once verified next steps will be started

- Before moving forward with these sections, CSO needs to confirm whether the retailer is GSTIN retailer or NON-GSTIN retailer. If the retailer has GSTIN, CSO needs to enter GSTIN or else he can click on skip as shown below.

- Once GSTIN confirmation is completed, then CSO will have to fill 4 sections and submit (Business details , Personal details , Bank details and commercial details). The first section is business details as shown below

< Onboarding

1 2 3 4 5

GSTIN Details Business Details Personal Details Bank Detail Commercial Detail

Enter GSTIN

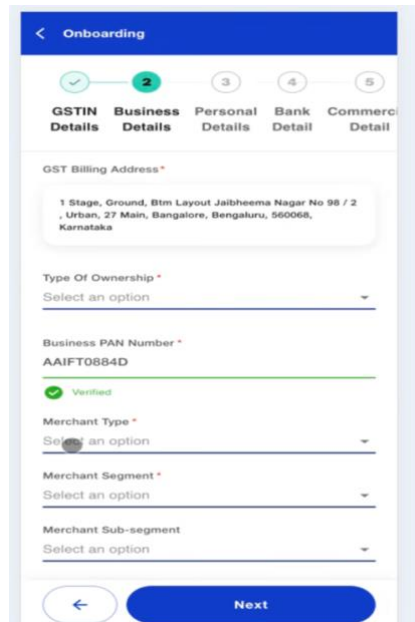

29AAIFT0884D1ZZ

Skip for Non-GST User

Validate

By continuing, you agree to our [Terms of Service](#) and [Privacy & Legal Policy](#).

7. If GST is entered , then the GST gets validated and the details mentioned below gets auto populated and the rest of the fields are needed to be entered by CSO as part of business details .

14. Once bank details are entered, user will have to enter commercial details as below.
15. Average monthly sales needs to be entered (in lakhs) for example if the monthly sales of general merchandise 2,00,000 user needs to enter 2 and if the FMCG average monthly sales is 50,000 user needs to enter 0.5

The screenshot shows the 'Onboarding' screen at step 5. At the top, a progress bar indicates the completion of four previous steps: GSTIN Details, Business Details, Personal Details, and Bank Detail. The current step, 'Commercial Detail', is highlighted with a green circle and the number 5. Below the progress bar, the form contains several input sections: 'Current Monthly Sales Average' with a sub-label 'Current Monthly Sales Average1'; 'FMCG Food *' with the prompt 'Please input FMCG Food'; 'Beverages *' with the prompt 'Please input Beverages'; 'General Merchandise *' with the prompt 'Please input General Merchandise'; 'Total Monthly Sales 0'; 'Commercials'; and 'No of windows *' with the prompt 'Please input No of windows'. At the bottom, there is a blue 'Next' button and a back arrow icon.

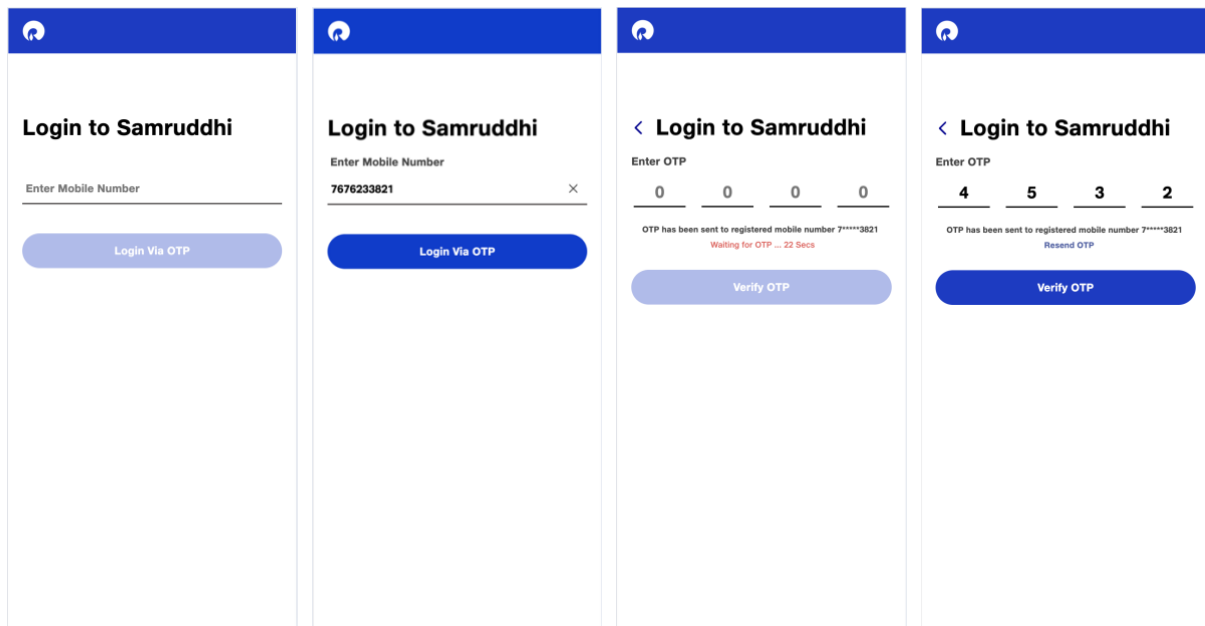

16. Once the average monthly sales are entered – system will calculate the overall monthly sales and show against the total sales
17. The next step is to enter the number of windows which are available within the shop and cost per window which is agreed from reliance and the monthly rental for GSB
18. Once the details of rental and windows are filled, branding needs to be selected. For outside shop branding – user needs to select installing dealer board as yes from yes/no option.
19. Once yes is selected, user has to select from the back lit board, non-lit board and store façade pillars
 - a) If back lit board is selected – user needs to select brand, height and width like shown below
 - b) If non-lit board is selected – user needs to select brand, height and width like shown below
 - c) If store façade pillars are selected- user needs to select brand and number of pillars /walls
20. In this step, in shop branding - what are the items that are going to be part of branding needs to be selected. Based on the checkbox that is selected against each item – the section gets expanded to enter the number and brands
 - a. For example: if cash counter is selected – user needs to enter brands and number of cash counters
21. Once all the details are entered – user can submit the application

Order Taking CSO

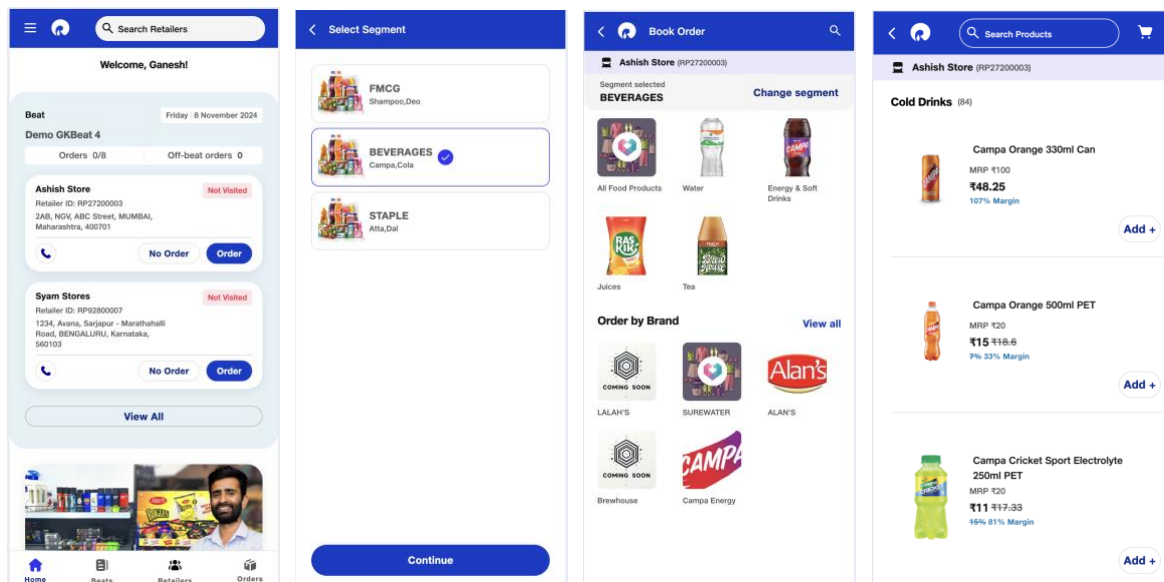

Step 1: How to Login to RCPL CSO App?

1. Download the RCPL CSO App from the apk file provided to you.
2. Install the app on your mobile and launch the app.
3. You will see the welcome screen requesting you to enter the mobile number.
4. Entering the mobile number would trigger OTP request screen.
5. On entering the correct OTP, you will get logged in to the app.
6. For testing through laptop below url's can be used (UAT: <https://rcpl.jmpx3.de>, Prod: <https://reliancedms.jiomartpartners.com>)

Step 1: How to place an assisted retailer order?

1. Post logging in, the CSO would be able to view beat for the day and the retailers mapped under that beat
2. The CSO would need to click on 'Order' button for a specific retailer to place an order. On clicking 'Order' button, CSO would be asked to select the segment for which the order to be placed. CSO would be greeted by the 'Order by category' & 'Order by brand' screen. Here CSO can click on one of the categories or brands to view the entire set of articles in the category or brand.

3. On landing on the product listing screen, CSO would view the articles along with article description, details, pricing, any ladder scheme/ any other type of scheme applicable. CSO may add the necessary count of items to cart by clicking on 'Add' button.

- CSO may also delete any item by clicking on '-' minus against each article. After adding necessary items to the cart, he may go to the cart to review the order and place the order to the distributor by clicking on 'Request' button
- After the order has been created, the success screen would be shown along with the order id and payment details.

Distributor Platform

What is RCPL DMS Platform for Distributor?

DMS platform is an interface provided to distributors of the RCPL Business to:
View the retailer orders placed by the CSO's, take action (accept/modify/reject) against each of the orders, return the retailer orders, print invoice and picklist.

Step 1: How to Login to RCPL DMS Platform?

Login to DMS

Enter Mobile Number

Login Via OTP

< Login to DMS

Enter OTP

0

0

0

0

OTP has been sent to registered mobile number 9*****3250 Waiting for OTP ... 25 Secs

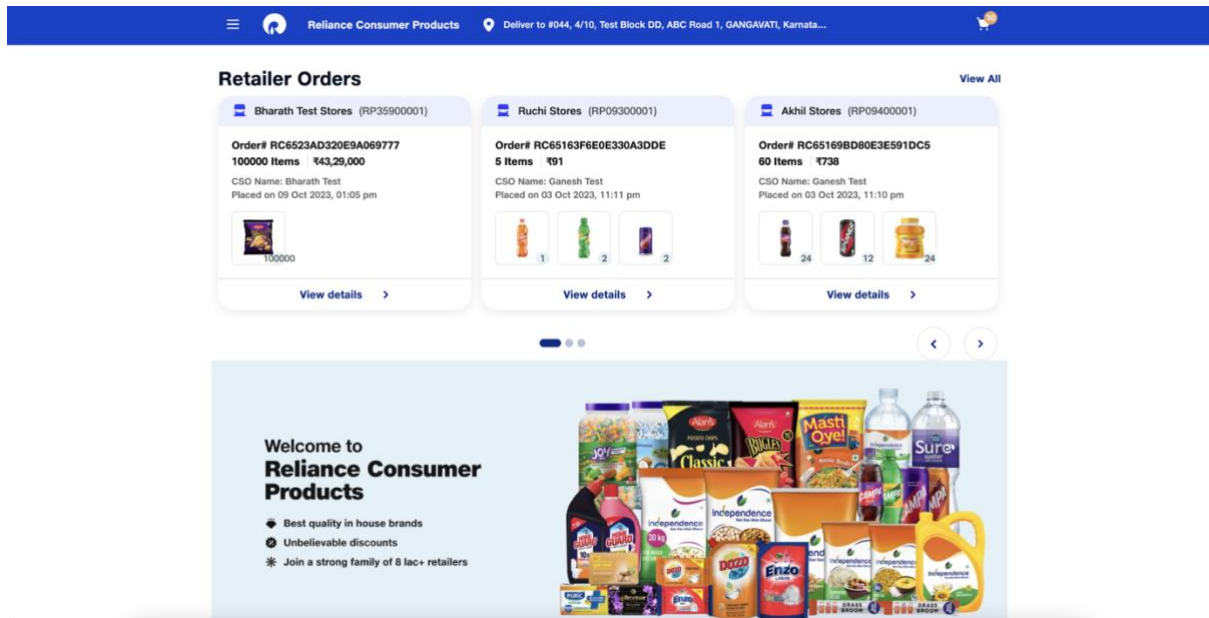

Verify OTP

1. Open the website (UAT: rcpl.jmpx3.de, Prod: <https://reliancedms.jiomartpartners.com>) on any browser
2. You will see the welcome screen requesting you to enter the mobile number.
3. Entering the mobile number would trigger OTP request screen.

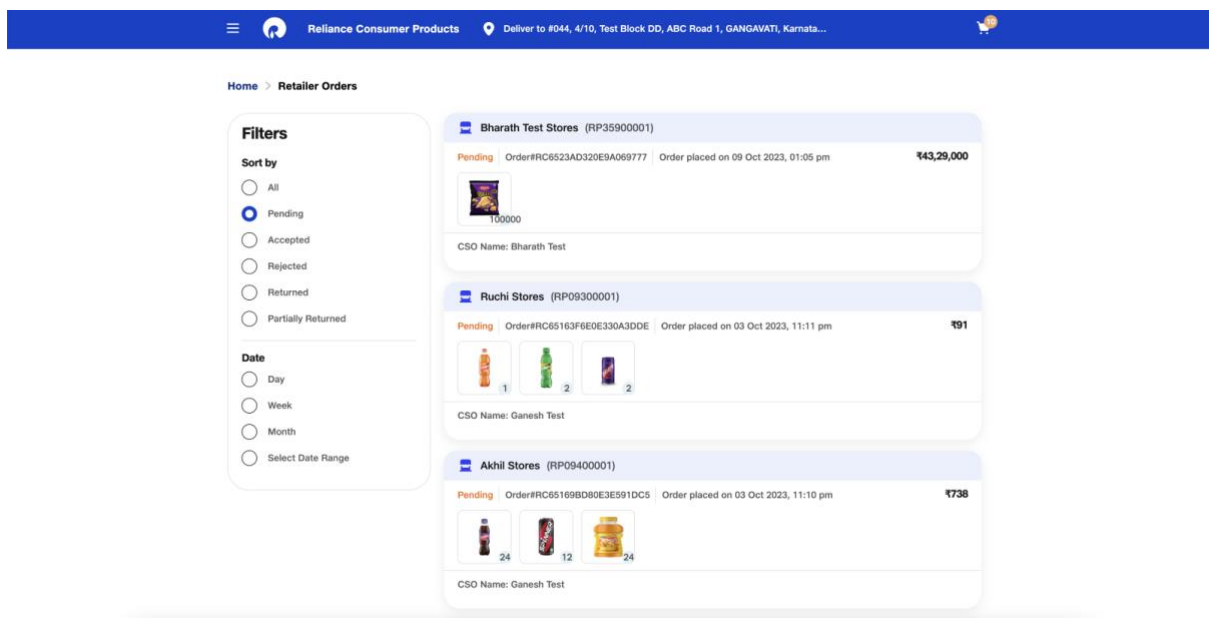

4. On entering the correct OTP, you will get logged in to the platform.

Step 2: How to view the retailer orders?

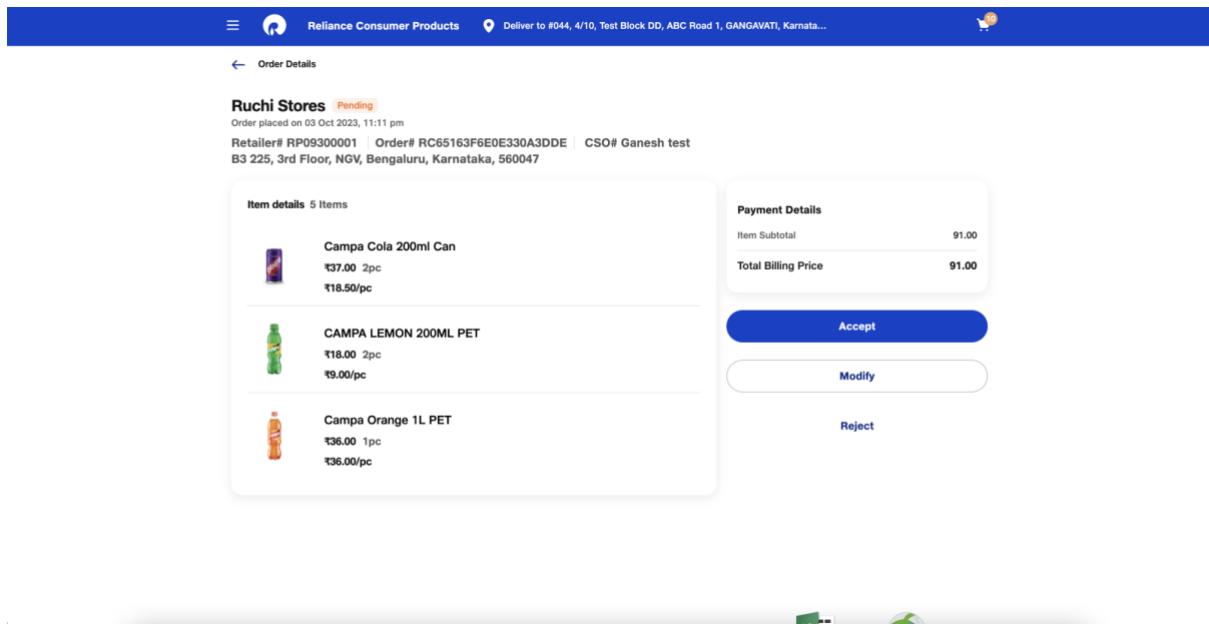

1. Upon successful login, the distributor will be able to view the below home page

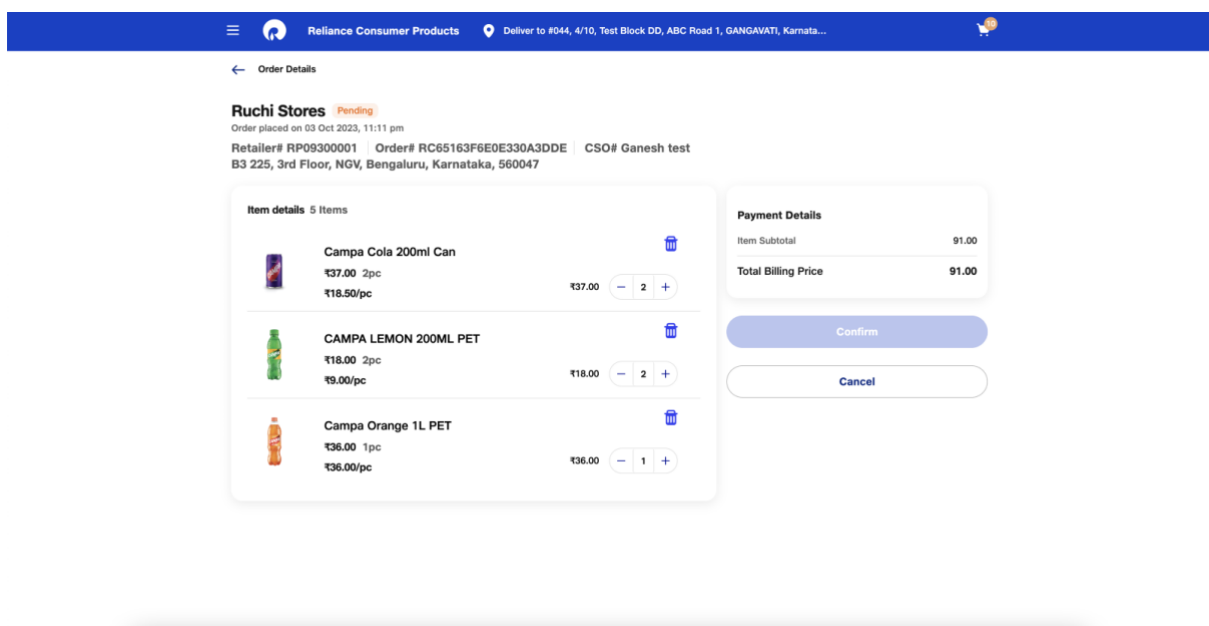

2. The distributor will be shown the latest 3 retailer orders on the home page.
3. If all the retailer's orders list to be viewed, then "View all" option will be clicked. Clicking on view order will take the distributor to the below screen

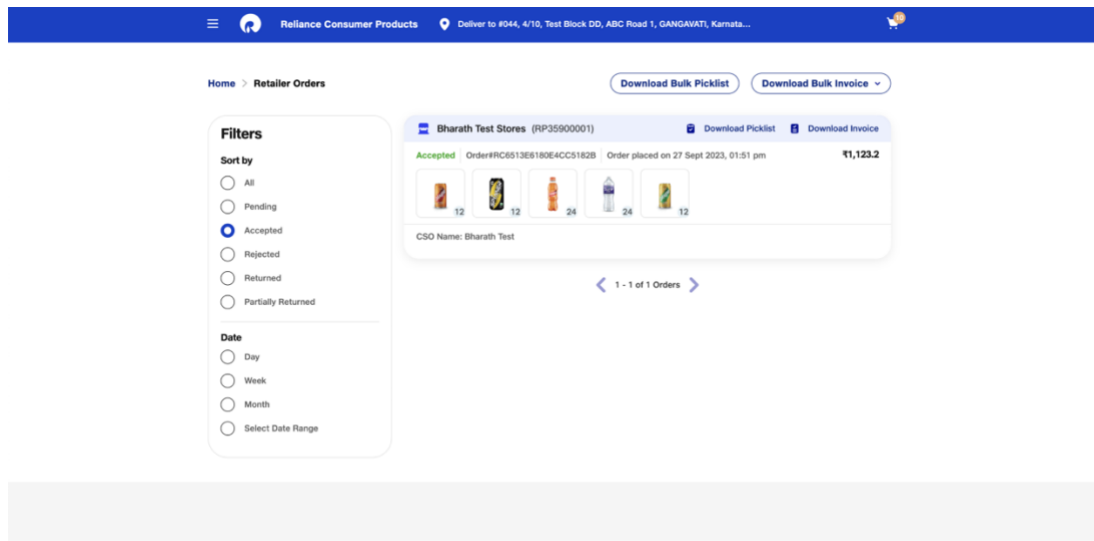

4. The distributor can click on a specific order against which the action to be taken. Clicking on any order will take the distributor to the below screen

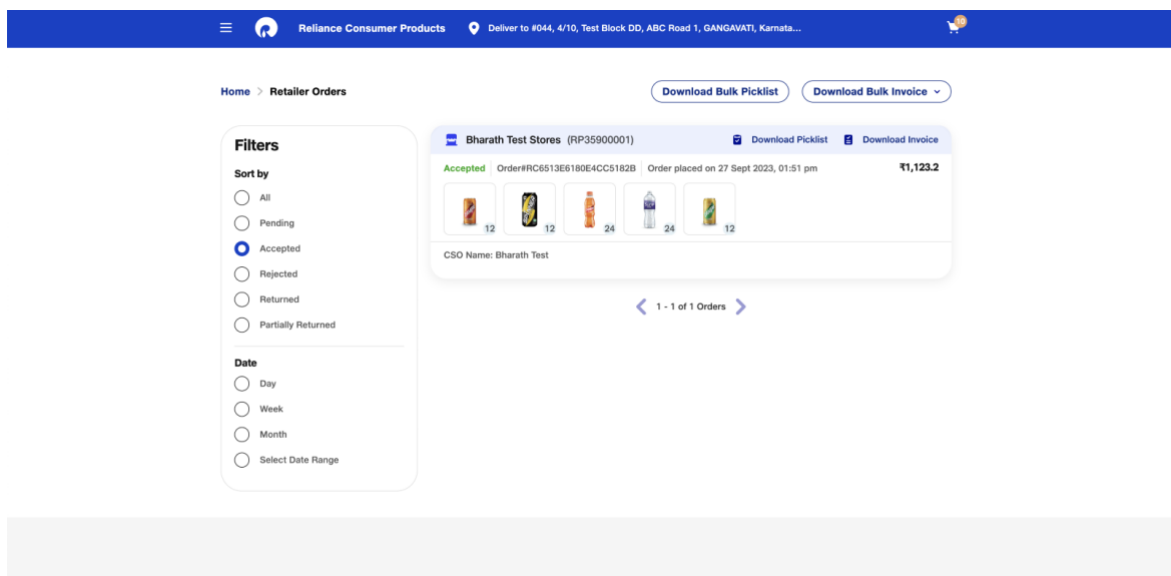

- The distributor can view all the article details within an order, check the price, distributor details.
- The distributor will be provided with the below three options
 - Accept
 - Modify
 - Reject
- If the distributor clicks on "Accept", the order will get accepted completely and the order status will change from pending to accepted
- If the distributor clicks on "Reject", the distributor will be asked to select the reason for rejection. Post selecting the reason, the order will get rejected completely
- If the distributor wants to modify the order and fulfil the partial order, then the same can be done by clicking the "Modify". Clicking on "Modify" the distributor will be taken to the below screen

10. The distributor will be allowed to increase/decrease the quantity against each of the article.
The pricing and schemes will get auto calculated as per the modification in the quantity
11. Once the modification is done and distributor clicks on confirm, a new order will get auto created if there is any reduction in the quantities from the original order
12. The actual order will move from pending to accepted status while the new order created will be in pending status till further action is taken on the same
13. The invoice and picklist for the all the accepted orders will get auto created.
14. The distributor will be provided an option to download the picklist and invoice at an order level or in bulk
15. To download the invoice or picklist against each of the order, the distributor will click on “Download Invoice” or “Download Picklist” option against respective order from the below screen

16. To download the invoice or picklist in bulk, the distributor will click on the “Download bulk picklist” or “Download bulk invoice” from the below screen

17. For bulk picklist download - The distributor will be asked to choose the date range for which the picklist to be generated. Upon selecting the date range, the distributor would be shown the list of beats against which the orders are accepted within the selected date range. If any of the retailer is not mapped to any beat, then the beat name will be shown as “no beat” for those orders
