Process for Primary DMS setup

Admin to access the admin portal via ACCOPS

Get access to ACCOPS
from GET IT

The screenshot shows the 'Virtual Workspace Portal' sign-in interface. On the left, under the 'Reliance' logo, there is a description: 'Access your corporate applications from anywhere, anytime. Access Intranet, Email, Web Applications, Microsoft Remote Desktop Application. Get connected to your personal desktop and files.' Below this, it states 'Login into corporate VPN using selected authentication mechanisms.' and 'Unauthorized access is prohibited. All access is logged on HySecure Gateway.' At the bottom, there are four links with icons: 'Click here to download HySecure Client.', 'Click here to download HyWorks Client.', 'Click here to download Mac Client.', and 'Click here to download Ubuntu Client.' On the right, the 'Sign-in' section contains a 'Username' field with a red error bar, a 'Password' field with a red error bar, an 'R-Pass Token' dropdown menu, and an 'Enter OTP' field. A 'Sign-in' button is at the bottom right.
