Samarth Plus: A Guide to the Career Growth Platform

Introducing Samarth Plus to your frontline teams. Samarth Plus is a structured career growth platform that helps store associates develop skills, earn certifications, and advance into higher roles. Grounded in the philosophy of “**Empowering Growth. Enabling Careers,**” it gives employees a **clear, self-driven path to their next role.**

What Samarth Plus Offers Associates

1. Growth

Associates get a transparent, defined path for advancement across retail formats and leadership levels

2. Recognition

Formal validation of skills and effort through certification, giving tangible proof of readiness

3. Confidence

Targeted knowledge and hands-on training to step into higher responsibilities with confidence

When introducing the platform, emphasize these three pillars. Associates need to be aware that every step forward is supported by skill development and recognized by the organization.

I. Candidate App

Accessing Samarth Plus

How Associates Log In for the First Time

The entry point is the **PeopleFirst app**. Eligible associates receive a notification about a new role opportunity. Tapping the notification opens the Samarth Plus interface. Guide your team to look for this notification and tap “**View**” to get started.

Step 1: Pick Your Path

Career Progression Roadmap

Associates can grow within their current format or explore other retail divisions.

Walk associates through the 'Explore Now' button on their dashboard. They select a role to review responsibilities, and then hit 'Begin the Program' to start.

Step 2: Quick Check

The Pre-Screening Phase

Before starting the learning modules, associates complete a screening to confirm baseline logic and communication skills for the target role.

Test Type	Format	Goal
Aptitude Test	Multiple Choice (MCQ)	Measure basic readiness, and logic
Behavioral Assessment	Guideline-based Scenarios	Evaluate situational judgment and leadership traits

Critical Assessment Rules

- ### Proctoring Access

Allow camera access. Keep front camera facing your face throughout—system takes photo to verify identity
- ### Environment

Conduct in quiet, well-lit area with clear, neutral background
- ### Time Constraints

Exactly 2 minutes to answer each question. Cannot go back once submitted

Once associates clear screening, the Learning Journey unlocks. Brief your team on the camera and environment requirements below to avoid failed attempts.

Step 3: Skill Up

The Learning Journey

The Learning Journey bridges screening and on-the-job practice. **This phase is mandatory**—associates must reach 100% progress to move forward.

Key point for your team: Associates must pass assessments for each skill level. If they fail a skill assessment, re-attempts are available to improve the score.

After completing digital modules, associates move to hands-on practice in the stores.

Step 4: Practice

On-the-Job Training (OJT)

This step is specifically required for higher-level leadership transitions, such as moving from K3 to DM.

The OJT Workflow

- 

Initiation

Tap "Create OJT Instance" to begin your training clock
- 

Shadowing

Associate watches their assigned Buddy or Trainer perform specific tasks
- 

Checklist Completion

Complete "See trainer/buddy perform activity in the store" checklist items
- 

Performance

Associate executes the task independently
- 

Video Proof

Associate records and uploads video of task performance for evaluator review
- 

Approval

Assessor reviews proof and marks it as "Approved"

Steps 5 & 6: Get Certified and Progress

The Final Milestone

Once all OJT tasks and sub-modules are marked "Approved," the associate is certified.

Download

Associates use the 'Download Certificate' button to save a PDF for their records

Formalize the Move

The associate brings their certificate to the Store Manager to discuss openings matching their certified skills

Associates progress into new responsibilities knowing they have been trained, tested, and certified. As HRBP, help coordinate this handoff with Store Managers.

Quick Reference: Program Stage Summary

Step Number	Action Name	Primary Objective
1	Pick Your Path	Associate chooses a target role and format (Grocery, Fashion, Electronics etc.)
2	Quick Check	Associate passes pre-screening assessments
3	Skill Up	Associate completes 100% of mandatory digital modules
4	Practice	Associate completes hands-on OJT tasks with an assigned Buddy
5	Get Certified	Associate validates readiness and downloads completion certificate
6	Progress	Associate discusses openings with Store Manager; HRBP coordinates

Use this summary when briefing associates. Each step is structured so progress is trackable, and all advance with demonstrated readiness.
